

# SS High Pressure Chemical Reactor

from: Geecon Industries

**Price:** £200,000.00

**Date:** 2024-04-12 10:34:15

**Expiration Date:** 0000-00-00 00:00:00

## Description

Our product range includes a wide range of ss high pressure chemical reactor, ss316 chemical reactor, mild steel reactors, chemical jacketed reactor and stainless steel reactors. Request CallBack

manufacture by us ranges for 50 liters to 40000 liters and they are generally made from stainless steels i.e. S.S.304, S.S.316 and Mild steel.

The reaction vessels are generally of following type

**LIMPET COIL VESSEL**

In limpet coil reactor, half pipe is welded on shell to provide steam, thermic fluid circulation etc. This limpet coil can be made of Mild steel or Stainless steel as per the application of the user. The design of Limpet coil can be of two type i.e. Single Pass or Double Pass.
